

Safety Barricade System Accessories

Both battery and solar lights are offered. These lights come in either bolt-on or screw-in style.

We offer a variety of sizes of flags to meet all FAA requirements.

The 10" Barricade Adapter connects the 10" x 96" Airport Barricade with other manufacturer's barricades.

Our fence panel is custom-designed to your application. Call us with the specifications or requirements.

The 32" or 42" Corner will allow for a variety of corner connections and configurations. These corner barricades are ballastable and interconnect with the 32" x 72" or 42" x 72" and 42" x 96" barricade products.

We stock and sell the following replacement components upon request:

- 5" Lid
- 1 3/4" Screw-on Lid
- Drain Plug
- High Intensity Prismatic Tape

Safety Barricade System

Established in 1983, The Tamis® Corporation is a multi-divisional company providing a wide range of crowd control, security, traffic safety, event management, sanitation, and other products.

Through our numerous divisions, Tamis® is the established industry leader in direct sales and rentals of a diverse group of products, including steel barriers, traffic cones, waste receptacles, turnstiles, and metal detectors.

We provide our new and long-term customers with friendly, personalized service. When you call Tamis®, you'll talk to a knowledgeable specialist who thoroughly understands our products and strives to meet your needs.

Our barricades are designed and built in several different sizes and can be used in a variety of applications.

Possible Applications:

- Force protection
- Crowd control
- Special events
- Anti-terrorism
- Gate approaches
- Border patrol
- Guard units
- Construction zones
- Airport construction
- Troop protection
- Air shows
- Traffic control
- Flight line
- Race tracks
- Parking lots
- Perimeter protection
- Site perimeter
- Recreational use

The safety barricade system consists of specialty barricades that are superior in strength and quality to the competition. We use a superior rotationally molded process using recyclable polyethylene. This allows our barricades to be lightweight and impact resistant.

Benefits:

- Structurally sound
- Lightweight
- Durable
- Drain plugs
- Variety of colors
- Easily relocated
- Lower labor costs
- Impact resistant
- Allows for application flexibility
- UV and long-term fade resistant
- Screw-on fill caps and lids
- Withstands harsh treatment during installation and relocation
- Ballastable with water or sand
- Composed of recyclable material
- Deployable by one or two people
- Quick installation and removal
- No heavy equipment needed, but forklift accessible
- Pre-molded attachment areas for lights and flags
- Compatible with square bolt-on or round screw-in lights
- Larger barricades accept fencing
- Long lasting visual appeal
- Uniform wall thickness with thicker corners and edges
