

TensabARRIER® 890 Slimline

Part of the world's first and largest range of retractable belt barrier systems

The classic design of the slim post has been the world's most popular post for 25 years. Available with the largest range of finishes, bases and belt options in the market the 890 can match any decor. Steel construction and a retracting belt mechanism tested to 250,000 cycles ensures the 890 will still be looking good after years of heavy duty use.

As with all the TensabARRIER range the 890 carries industry leading safety features. Patented SlowRetract technology for slow, safe belt retraction and locking belt ends come as standard.

The 890 belt is constructed of woven polyester with an industry leading 1,100lb breaking strain ensuring the belt will last the life of the post.
