

RETRACTA-CADE

by 
THE TAMIS CORPORATION

Crowd Control Where & When You Need It

Developed by a Retired
NYPD Lieutenant

Made in U.S.A

- ▶ **Immediate Security:** 10' barrier deploys in 30 seconds
- ▶ **Retracts Easily:** for compact storage and transportation
- ▶ **Heavy-Duty 37 lbs. Barrier:** yet still light enough to carry
- ▶ **Reduce Costs:** saves on labor, warehousing & transportation

Safety On Demand: The fully retractable, portable barricade system

Rust-proof anodized aluminum and impact-resistant plastics: designed to withstand heavy use and the outdoor elements.

Heavy-Duty but transportable: at 37 lbs. it's light enough for one person to carry, but substantial enough for a safe, controlled barrier system

Extremely durable HDPE extensions: pull out in seconds with the attached carabiner. Grooved stripes won't wear or fade over time.

Optional silk-screen printing: on the unit face for a permanent message

Legs deploy easily: with a simple hand lever and lock into place

Adjustable length: from 4' - 10'

Stackable and Storable

Store large quantities efficiently: at fire houses, police stations, etc. for immediate access. 16 units store in a 4' x 4' x 4' area.

Lockable Connection

Threaded carabiner: locks to secure the connection between barriers, and rotates 180° to create endless barrier configurations.

Folds Less than Half its Size

Retracts to 4' x 1' x 8" in seconds: several can fit into the trunk of a patrol car. Folded legs automatically lock and serve as a carrying handle.

Retracta-Cade Options

Configure your Retracta-Cade's Design to Meet General or Specific Applications:

Retracta-Cade Sign Inserts

Printed sign panels allow the Retracta-Cade to be used for multiple applications. Up to three sign inserts slide and lock into each track, to store six signs in one unit.

Signs are single-sided and digitally rear-printed on PETG with white vinyl backing to protect the message. Choose from the messages shown or any custom printing.

Stock:

POLICE LINE-DO NOT CROSS	FIRE DEPT.- KEEP BACK	CAUTION ⚠ CAUTION
CRIME SCENE	FIRE LINE-DO NOT CROSS	SHERIFF LINE-DO NOT CROSS

Retracta-Cade Light Kits

Kit includes six rechargeable LED lights, six magnetic adapters, wall charger, car charger, and hard carrying case

Attention-grabbing LED lights slide into the top of the Retracta-Cade for increased visibility in day or night.

Features:

- ▶ Red, yellow or blue lights available
- ▶ Hard carrying case conveniently charges and stores six LED lights.
- ▶ Each light includes nine patterns (flashing, steady-on, rotating, etc.)
- ▶ Lights are waterproof and impact-resistant
- ▶ Lights can be removed from magnetic Retracta-Cade adapters and used for other applications like road 'flares'

Three Standard Extension Colors

Yellow with Black Stripes

Blue with White Stripes

Red with White Stripes

Other Options

Reflective Decals: 1/2" stripes provide increased visibility at nighttime

Property ID Tagging: Text beneath the unit indicates ownership
